Cosmetics and Toiletries, Vol. 93, 1978

Subject Index

Prepared by Hilda Feinberg, PhD

Absolute viscosity, July, 23
Adhesiveness, texture profile scale for, July, 32
Adverse skin reactions, *see* Skin
Agar, thin film, determination of microbiological contamination by, May, 67-73
Aging of skin, *see* Skin
Allantoin, August, 39-41
Allergy, perfume, testing for, February, 49-53
Antimicrobial power, of liquid and semisolid pharmaceuticals, December, 23-26

Barrier function of stratum corneum, June, 42
Bath oil, clear, floating, April, 58
Black cosmetics, formulating, April, 85-86
Bronopol, effect of formulation on activity, February, 47-48

Calcium stearate, gel, June, 33
Carbopol resins, April, 71-73
Chelating agents, December, 28-30
Chelation, chemistry of, December, 28-30
Collagen, hydrolyzed, April, 63-65
Collagen, soluble, April, 63-65
Contact angle
  measurement, January, 30, 37
  of polar liquids, determination of, December, 32-34, 36, 38, 40
  of vinyl films, December, 32-34, 36, 38, 40
Contamination, microbiological, *see* Microbiological contamination
Cosmetic science, 1977, literature survey, May, 25-52
Cosmetics, definition, June, 23
Creams, optimization of, July, 41

Delaney Clause, Food, Drug and Cosmetic Act, June, 26
Dental caries, enzymes in relation to, November, 50
Dilatant flow, July, 26, 28
DMSO (Dimethyl sulfoxide), December, 49-50
Dry skin, *see* Skin
Drugs, resistance to microbiological contamination, December, 23-26

Ecology, and preserved systems, June, 49-50
EDTA (ethylenediaminetetraacetic acid), December, 28-30
Emolliency, and moisturization, April, 43
Emollients
  branched-chain esters in, 69-71
  definition, April, 46
  glucose derivatives in, March, 73-75
  patent digest, April, 55-60
  preservation, March, 42-49
    effect of partition coefficients, March, 42-49
  in toilet soaps, March, 51-52
  in vitro evaluation of, March, 53-66
  vitamins in, March, 77-79
Emulsifiers
  hydrophilic polymeric, July, 49
  mixed, July, 50-51
Emulsions
  continuous phase, July, 58
  disperse phase, July, 55
  high internal phase ratio, November, 54-55
  hydrophilic component, July, 52
  lipophilic component, July, 51
  rheological behavior
    and consumer acceptance, July, 31-44
    control of, July, 49-59
    effect of processing on, July, 61-69
  stability
    determination by spectral absorption, May, 53-62
    effect of surfactant type and concentration, May, 53-62
  stability indexes for, May, 54-57
    effect of surfactant type, May, 54-57
    relationship between HLB value and, May, 57
    relationship between surfactant concentration and, May, 57-62
Enzymes, and cosmetics, November, 49-51
Essential fatty acid deficiency, in rats, June, 45
Esters, branched-chain, in emollients, March, 69-71

Face masks, December, 32-34, 36, 38, 40
  vinyl, December, 32-34, 36, 38, 40
Fatty acid modified-PVA films, December, 32-34, 36, 38, 40

Fatty acids, essential
deficiency, in rats, June, 45
Food and Drug Administration
establishment inspection, June, 36-38

Gels, stearate, with liquid paraffin, June, 33-34
Gesellschaft Dur Kosmetologies E.V., Fourth Symposium, Munich, Germany, October, 1977, abstracts of papers, January, 43-45
Glucamate SSE-20, March, 74
Glucams, March, 73
Glucate SS, March, 74
Glucose derivatives, in emollient skin care formulations, March, 73-75
Good Laboratory Practice Regulations, June, 37
Good Manufacturing Practices, August, 17-18; September, 25-28; October, 30-32, 34; November, 19-21
buildings and grounds, September, 25-28
CTFA proposal, August, 17-18
equipment for cosmetic manufacture, October, 30, 32, 34
microbiological aspects of, September, 37-40, 43-50
process validation, November, 19-21
Gumminess, texture profile scale for, July, 32

Hair, damaged
amino acid analysis, November, 68
determination of, November, 65-66, 68, 70
infrared spectroscopy of, November, 75
nature of, November, 65-66, 68, 70-72, 75, 77
physicochemical properties of, November, 70, 72
repair of, November, 77
sorption of quaternary surfactants on, November, 77
thermal properties of, November, 72, 75
torsional modulus of, November, 72
Hair sprays, polymers for, January, 37, 40, 41
Hedonics, scaling with the magnitude estimation, July, 38
HEDTA (hydroxyethylene diaminetriacetic acid, December, 28-30
Hexadecyl alcohol, as emollient, April, 56
Humectants, March, 33; April, 40, 61-62
Hydagen F., April, 68-70
Hydration of skin, *see* Skin
Hygrophotographic technique, in cosmetic chemistry, August, 35-36, 38
Hysteresis loops, July, 29, 30

Inspection of establishment, preparation for, June, 36-38
International Federation of Societies of Cosmetic Chemists, Tenth Congress, Sydney, Australia, October 25-30, 1978. Program, and abstracts of papers, October, 51-132
International System of Units (SI), November, 57-60
Isothermal flow, July, 23

Japan, safety of cosmetics, November, 39, 42-44

Karite nut-butter, extraction of, January, 48

Lactil, April, 61-62
Lanolides, April, 45-48
Lanolin, as emollient, April, 58
Lanolin, hydrous, as moisturizer, April, 31-32
Lipids, skin, June, 45
Lipo-polypeptides, as acidic emollients, April, 42
Liposomes, as natural moisturizers, April, 39-41
Lipsticks
bases, development of, January, 15-26
breaking point, January, 15-16, 20
melting point, January, 16-18, 20
softening point, January, 16
Liquids, psychophysical scaling perceptions of, July, 93
Lotions, optimization of, July, 41

Magnesium stearate, gels, with liquid paraffin, June, 33
Manufacturing, sanitary microbiological aspects, September, 37-40, 43-50
Metal-EDTA complex (MEDTA), December, 28-30
Metric system, November, 57-60
Microbiological contamination, determination by thin film agar, May, 67-73
Microbiological quality control, skin care products, December, 42, 45-48
Microorganisms, altering of environment, June, 49-50
Mineral oil, as moisturizer, March, 81
Moisturized skin, *see* Skin
Moisturizers, March, 17-62
definition, April, 28, 46
efficacy, measurement of, March, 35-40
efficiency, regression method for assessing, April, 27-35
in vitro models for screening, April, 67
in vivo testing, April, 68
market for, April, 49-53
mechanisms of, April, 37-41
mineral oil and petrolatum as, March, 81-82
natural, April, 37-41
natural moisturizing factor (NMF), March, 31; April, 67
patent digest, 1966-1977, April, 55-60
preservation of, effect of partition coefficients, March, 42-49
protein hydrolysates as, March, 83-84
sodium lactate as, March, 85-86
thickening with resins, April, 71
in toilet soaps, March, 51-52
vitamins in, March, 77-79
Monolayers, January, 29
Multivariate analysis, July, 34

Natural Moisturizing Factor (NMF), March, 31; April, 67
Neutrogena, November, 34-36
Newtonian flow, July, 23-24
Non-Newtonian flow, July, 23
Norda, September, 61-62

Oil of Olay, April, 49-51
Oils

as emollients, April, 43-44
as moisturizers, April, 32, 43-44
Oils, animal, April, 44
Oils, petroleum, April, 44
Oils, synthetic, April, 44
Oils, vegetable, April, 43
Optimization of lotion/cream products, July, 41

Paraffin, liquid, June, 33
Patch tests, 21-day performance, November, 29-31
Penetration enhancers, December, 49-50
Percutaneous absorption control, June, 39-48
Perfume allergy, testing for, February, 49-53
Permeability of cosmetic ingredients, June, 39
barrier formation, June, 42
effect of concentration, June, 40, 42
effect of hydration, June, 42
effect of solubility, June, 40, 42
Petrolatum, as moisturizer, March, 81; April, 31
Pharmaceutical preparations, microbiological stability, December, 23-26
Phenol index, in evaluation of effective HLB of nonionic surfactants, September, 53-54, 56-57, 60
Photosensitization test, November, 43
Phototoxicity test, November, 42
Pig epidermis, as skin model, April, 67
Plaque, enzymes in relation to, November, 50
Plastic flow, July, 24-25
Polymers, for hair sprays, January, 37, 40, 41
Polypeptides, lipo, as acidic emollients, April, 42
Preservatives, partition coefficients for, March, 49
Preserved systems, and ecology, June, 49-59
Primary skin irritation test, November, 42
Protein hydrolysates, as moisturizers, March, 83-84
Protolate WS, April, 66
Pseudoplastic flow, July, 25
Pur-Cellin Oil, March, 69-72
PVA films, fatty acid modified, December, 32-34, 36, 38, 40
adhesion energy, December, 32-34, 36, 38, 40
contact angle, December, 32-34, 36, 38, 40
Pyrrolidone carboxylic acid, as humectant, March, 33

Regression method, for assessing efficacy of moisturizers, April, 27-35
Rheograms, July, 23
Rheological behavior, emulsions
and consumer acceptance, July, 31-44
control, July, 49-59
effects of processing on, July, 61-69
Rheology, fundamental concepts, July, 23-30
Ross-Miles, method of determining foaming capacity of surfactants, August, 24

Safety of cosmetics, June, 23-30
in Japan, November, 39, 42-44
testing, June, 24
in use, June, 24, 28
Sanitary manufacturing, cosmetics
microbiological aspects of, September, 37-40, 43-50
Scanning electron microscopy, April, 74-83
Sebum production, reduction of (patent), August, 15
Sensitization test, November, 42
Shampoo-setting lotions, February, 16
Shampoos
developments in technology, February, 15-44
formulation of, with special properties, August, 21-32
Shampoos, conditioning, February, 24-29
Shampoos, dandruff, February, 32
Shear, effect on product viscosity, July, 65
SI, *see* International Systems of Units
Skin
adverse skin reactions, prevention via percutaneous absorption control, June, 39-48
aging of, September, 29-30, 32-34, 36
barrier function of stratum corneum, June, 42
barrier permeability, December, 49-50
hydration, June, 42
moisturization, March, 17-62
characterization by scanning electron microscopy, April, 74-83
smoothness of, March, 17, 22
texture, March, 17-28
Skin care preparations, microbiological quality control of, December, 42, 45-48
Skin, dry, April, 27-28
Soaps, toilet, moisturizers and emollients in, March, 51-52
Society of Cosmetic Chemists
Annual Meeting Report, December 1977. Abstracts of papers, February, 57-64
Scientific Seminar, May, 1978. Abstracts of papers, August, 43-48
Sodium isostearoyl-2-lactylate, January, 47-48
Sodium lactate
as humectant, March, 33
as moisturizer, March, 85-86
Stability indexes, for emulsions, *see* Emulsions
Stearates, June, 33
Stratum corneum, April, 37-38, 61-62
barrier function of, June, 42
water-binding capacity, April, 37-40
Surface chemistry, as tool for evaluating cosmetics, January, 29-42
Surfactants
effects on permeability of drugs, June, 39-40
foaming capacity, determination by Ross-Miles method, August, 24
hydrophilic-lipophilic balance values (HLB), June, 40
Surfactants, amphiphilic, January, 30
Surfactants, cationic, January, 30
Surfactants, nonionic, January, 30

Technicians, and laboratory productivity, February, 55-56
Textural perception, July, 31
Thixotropic flow, July, 28-29
Thixotrophy, July 28-29
Toilet soaps, *see* Soaps
Touch sensation, analysis of, July, 32
Transepidermal water loss, measurement of,

March, 35

Viscosity, absolute, July, 23
Viscosity, texture profile scale for, July, 32
Vitamins in emolliency, March, 77-79
in moisturizers, March, 77-79

Weber method, in determination of damaged hair, November, 65-66

Xerosis, April, 29

Zinc stearate, gels, with liquid paraffin, June, 33

Cosmetics and Toiletries, Vol. 93, 1978

Author Index

Akabori, T., May, 53
Anderson, D., November, 29

Baiocchi, F., January, 47, 48
Barnes, W. S., March, 51
Berube, G., March, 81
Bogaty, H., February, 55
Bornfriend, R., July, 61
Bozic, M., June, 33
Braig, S., April, 67
Braunagel, A., January, 43
Brudney, N., March, 53

Carames de B. L. F. de Gouvea, M., January, 15
Chiostri, R. F., March, 83
Clayden, E. J., May, 67
Clum, C. C., April, 43
Croshaw, B., March, 42
Cussler, E. L., March, 17

d'Audiffret, Y. T., November, 49
deNavarre, M. G., Desiderata, columnist

Feinberg, H., January, 59
Fishken, D., July, 31
France, J. R., January, 47, 48

Garber, C. A., April, 74
Gerstein, T., February, 15
Gloxhuber, C., April, 67

Handjani-Vila, R. M., January, 29
Hart, J. R., December, 28
Highley, D. R., March, 35
Horie, K., May, 53
Horiuchi, T., November, 65
Huttinger, R., April, 61

Idson, B., March, 77; July, 23
Ishizaka, T., December, 32

Jayasekara, B., May, 67
Jellinek, J. S., March, 69
Johnsen, V. L., March, 83

Kenney, D., Patent Report, columnist
Kligman, A. M., April, 27
Kohler, R. G., June, 36
Koishi, M., December, 32
Komatsu, H., June, 39
Korbar-Smid, J., June, 33

Leduc, M., March, 53
Lin, T. J., Notes from the Orient, columnist
Lorenzetti, O. J., December, 49

McCarthy, J. P., April, 66
McCarthy, T. J., February, 47
Marszall, L., September, 53
Matesevac, H. A., April, 66
Mausner, J. J., March, 67
Mead, W. J., August, 17; September, 25; October, 30; November, 19
Mecca, S. B., August, 39
Middleton, J. D., March, 85
Morikawa, F., November, 39
Moskowitz, H. R., July, 31
Mueller, W. H., April, 84
Murphy, L. J., March, 31
Myburgh, J. A., February, 47

Osberghaus, R., April, 67

Parker, M. S., June, 49
Parrish, D. F., April, 63
Pierce, V., November, 29
Proserpio, G., April, 45

Rapaport, M., November, 29
Reng, A. K., August, 21
Rieger, M. M., May, 25
Riso, R. R., April, 42
Rogers, J. A., July, 49
Rudner, E. J., June, 53

Sasaki, M., September, 29
Schorr, W. F., February, 49
Sciarra, J. J., May, 75
Seldner, A., March, 73
Senma, M., September, 29
Simon, K., April, 49
Sivadjian, J., August, 35
Stoner, G. G., November, 57
Strianse, S. J., April, 3[illegible]
Suzuki, M., June, 39

Tagliapietra, L., December, 23
Tanaka, S., May, 53
Taylor, J. R., April, 71
Toida, H., December, 32
Tranner, F., March, 81
Turek, B. A., March, 53

Van Abbe, N. J., June, 23
Vanlerberghe, G., January, 29
van Raay, H.-G., April, 67

Wallhausser, K. H., December, 42

Yablonski, J. I., September, 37
